Date

Safeguarding Policy Incorporating Child Protection

Sir Graham Balfour MAT

Whilst this policy pertains to all employees and, as appropriate, Governors, Trustees, Members, contractors, visitors and volunteers connected with Sir Graham Balfour Multi-Academy Trust, Local Governing Bodies of individual academies have been delegated responsibility to specify local arrangements for the operation of this policy within their academy. These are detailed within page 5, page 23-24 and Appendix 9 of this policy.

Deputy Designated Safeguarding Lead (DDSL)	Rachel Hedges Sarah Marshall	Level 4 Level 4 July 2022
Nominated Governor for Safeguarding	Mike Winkle	Level 1 October 2022
Chair of Governors	Mike Winkle	Level 1 October 2022
Designated teacher for Looked After Children	Sharon Metcalfe	Level 4 December 2021
Mental Health Lead	Sharon Metcalfe	Level 4 December 2021

1. Introduction & Aims

The purpose of the Safeguarding policy of schools within the Sir Graham Balfour MAT is to ensure that we:

- **Are committed** to developing a robust safeguarding culture of vigilance and challenge.
- **Build resilience** by raising awareness of safeguarding and child protection issues, and equipping children with the language and skills to keep themselves safe.
- **Establish a safe environment** in which children can learn and develop within an ethos of openness and where children are taught to treat each other with respect, to feel safe, to have a voice and know that they will be listened to.
- **Support vulnerable children** who have been abused, have witnessed violence towards others or may be vulnerable to abuse.
- **Prevent unsuitable people** from working with children by ensuring we practise safe recruitment in checking the suitability of **all** school staff, supply staff and volunteers to work with our children and maintain an active, ongoing vigilance in line with the safeguarding culture.

Our aim is to follow the procedures set out by Staffordshire Safeguarding Children's Board, Working Together to Safeguard Children 2018 and Keeping Children Safe in Education 2022 by **knowing and understanding** that:

- Safeguarding and promoting the welfare of children is **everyone's** responsibility and the **voice of the child** is evident.
- **Everyone** who comes into contact with children and their families has a role to play.
- **Everyone** should ensure that their approach is **child-centred** considering, at all times, what is in the **best interests** of the child.
- By establishing a safe environment, we enable children to learn and develop within an ethos of openness.
- **No single practitioner** can have the full picture of a child's needs and circumstances.
- If children and families are to receive the **right help at the right time**, **everyone** who comes into contact with children and their families has a role to play in identifying concerns, sharing information and taking prompt action.
- The importance of providing children with a balanced curriculum including PHSE, healthy relationship education, online safety, sexting, child-on-child abuse as well as 'abuse outside the home' county Lines, contextualised safeguarding issues, and Child Criminal Exploitation (incl CSE). Also supporting this with online activities, enabling children to enhance their safeguarding skills and knowledge whilst understanding the risks.
- Undertaking the role to enable children and young people at each school in the Trust to have the **best outcomes**.
- Ensuring that as a Trust we have awareness of staff's knowledge and understanding, as well as embedding safeguarding through clear systems of communication and Continuous Professional Development (CPD) so that safeguarding is a **robust element** of each school's practice.

In all schools within Sir Graham Balfour MAT we strive to: -

- **Protect** children from maltreatment.
- **Prevent** impairment of children's mental and physical health or development.
- **Ensure** that children grow up in circumstances consistent with the provisions of safe and effective care.
- **Take action** to enable **ALL** children to have the best outcomes.

This policy provides guidance to all adults working within the school, whether paid or voluntary or directly employed by the school or a third party and should be read in conjunction with the documents Keeping Children Safe in Education 2022 and Working Together to Safeguard Children 2018.

- This policy is available on the school website and is available on request from the school office. We will also inform parents/carers about this policy when their children join any school within the Trust.
- This policy will be reviewed in full by the Trust Board and Governing Body on an annual basis or sooner should legislation/guidance change.
- This policy sets out how each school's governing body discharges its statutory responsibilities relating to safeguarding and promoting the welfare of children who are students at this school. Our policy applies to all staff; paid and unpaid, working in the school, including Governors.
- The policy is provided to all staff (including temporary staff, supply staff and volunteers) at the point of induction, alongside the Staff code of conduct policy.
- In each school in the Trust our Governing Body, working with the senior leadership team and especially our Designated Safeguarding Lead (DSL), ensure that those staff who do not work directly with children will read at least Part 1 or Annex A (condensed version of Part 1) of the KCSiE 2022 guidance.
- All staff who work directly with children, are provided with, and have read at least Part One of Keeping Children Safe in Education 2022.
- The school follows the Staffordshire Safeguarding Children's Board policies and procedures. StaffsSCB

2. The ethos and culture within the Sir Graham Balfour MAT

Within the Sir Graham Balfour MAT, children's welfare is of paramount importance. Children are reassured that they have a voice, will be listened to and what they say will be taken seriously. They know that they will be supported and kept safe. They will never be given the impression that they are creating a problem by reporting abuse.

Children are encouraged to talk freely with staff if they are worried or concerned about something and staff understand that a victim of any type of abuse should never feel ashamed for making a report. Their views and wishes will inform any assessment and provision for them.

We make every effort to listen to and capture the voice of children to enable us to have a clear understanding of their daily lived experiences.

We are aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected and/or they may not recognise their experiences as harmful. They may feel embarrassed, humiliated or being threatened. This could be due to vulnerability, disability and/or sexual orientation or language barriers. This does not prevent ALL staff from having professional curiosity and speaking to the DSL if they have concerns about a child and staff determine how best to build trusted relationships with children which facilitate this communication.

We understand our statutory duty to safeguard and promote the welfare of children and we maintain a professional attitude of **'it could happen here'** where safeguarding is concerned. We expect ALL staff, trustees, governors, volunteers, and visitors to share our commitment, maintaining a safe environment and a culture of vigilance.

Everyone has a responsibility to **act without delay** to protect children by reporting anything that might suggest a child is being abused or neglected. It is our willingness to work safely and challenge inappropriate behaviours, that underpins this commitment. We work in partnership with families and other agencies to improve the outcomes for children who are vulnerable or in need.

We have a culture of vigilance and staff are confident and competent in the timely challenge of unacceptable behaviours and these are dealt with appropriately and robustly. Staff do not accept these behaviours as 'banter' 'having a laugh' or 'part of growing up'.

All staff are encouraged to report any concerns that they have and not to see these as insignificant. On occasions, a referral is justified by a single incident, such as an injury or disclosure of abuse. However, concerns can accumulate over time and are evidenced by building a picture of harm, particularly true in cases of abuse or neglect.

We know that it is crucial that staff record and pass on any concerns in a timely manner and in accordance with this policy, to allow the DSL/DDSL to build up a picture and access support at the earliest opportunity.

When dealing with safeguarding matters, we are conscious of the language and terminology that we use, especially in front of children. Sometimes reference is made to a child who has been subjected to abuse as a victim. However, not all children will consider themselves a victim nor will they want to be referred to in this way. We are conscious of this and when managing any incident, we will be prepared to use terminology that children are most comfortable with.

In guidance we will also at times use the term 'alleged perpetrator' and where appropriate 'perpetrator' and we know that these are widely used terms. However, we know that in some cases the abusive behaviour will have been harmful to the perpetrator as well and again we will be mindful of appropriate language and will decide appropriateness on a case-by-case basis.

We work closely and restoratively with our safeguarding partners with the confidence to challenge decisions and practice if deemed appropriate.

We are committed to working with parents in a positive, open, and transparent way. We ensure that all parents are treated with respect, dignity, and courtesy.

We recognise the stressful and traumatic nature of safeguarding and child protection work and support staff by providing an opportunity to talk through their anxieties with the DSL and to signpost and seek further support as appropriate.

3. Legislation, guidance and links to other policies

This policy has been devised with due regard for the statutory guidance from the DfE Keeping Children Safe in Education 2022 (KCSiE) and this document is read alongside;

- Working Together to Safeguard Children 2018
- Staffordshire Safeguarding Children Board Procedures
- What to do if you are Worried a Child is being Abused-Advice for Practitioners
- Behaviour in Schools - Advice for headteachers and school staff
- The Sir Graham Balfour MAT recommends that schools use The Key as a source of advice and guidance.
- Other school policies and procedures which link to this policy are: Achievement and Positive Behaviour Policy, Anti-Bullying, Child on child abuse procedure, Staff Code of Conduct, Staff Recruitment Policy and Whistleblowing

4. The role of all staff in keeping children safe

All staff have read and have a good understanding of **at least part 1 of Keeping Children Safe in Education 2022** and are aware of the safeguarding link to other policies relating to their daily practice.

All staff receive appropriate safeguarding training (including online safety) at induction and this training is regularly updated. In addition, all staff should receive safeguarding and child protection (including online safety) updates as required, and at least annually, to continue to provide staff with relevant skills and knowledge to safeguard children effectively.

All staff know who the DSL/DDSL is, and as well as being the expert in this field, are there to support staff, volunteers, and Governing body.

All staff are aware of their responsibility to provide a safe environment in which children can learn.

All staff are aware of indicators of abuse and neglect and understand that children can be at risk of harm inside and outside of the school/college, inside and outside of home and online. Staff are confident in exercising **professional curiosity** and understand that knowing what to look for is vital for the early identification of abuse and neglect to identify cases of children who may be in need of our help or protection. They are aware that abuse, neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

All staff, but especially the DSL/DDSL consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual abuse (including harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship abuse), criminal exploitation, serious youth violence, county lines, and radicalisation.

All staff are aware that technology is a significant component in many safeguarding and wellbeing issues and that children are at risk of abuse and other risks online as well as face to face. They know that in many cases abuse and other risks will take place concurrently both online and offline. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

All staff know what to do if a child tells them they are being abused, exploited, or neglected. Staff know how to maintain an appropriate level of confidentiality by only involving those who need to be involved, such as the DSL/DDSL and local authority children's social care. Staff never promise a child that they will not tell anyone about a report of abuse, as this may ultimately not be in the best interests of the child

All staff know how to reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting **any** form of abuse and/or neglect. Nor should a victim ever be made to feel ashamed for making a report.

All staff are aware of the early help process and understand their role in it and are confident to identify and support children who may benefit from early help, effectively giving children and their families the right help at the right time.

All staff are aware of how to make a referral to children's social care, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) that may follow a referral, along with their potential role in such assessments.

All staff understand their responsibility to report concerns about the behaviour of any adult in the school and know that they will be listened to and taken seriously.

All staff understand their responsibility to escalate concerns and 'press for reconsideration' if they believe a child's needs remain unmet or if the child is failing to thrive and in need or if the child is at risk of harm.

In all cases, if staff are unsure, they know that they should always speak to the DSL/DDSL.

5. Roles and responsibilities of Designated Safeguarding Lead (DSL) and Deputy Designated Safeguarding Lead(s)(DDSL)

For full details of the DSL/DDSL roles and responsibilities please refer to Part 2 & Annex C of Keeping children safe in education 2022.

The DSL/DDSL(s) have received the appropriate safeguarding training to provide them with an understanding of their role and the knowledge and skills to carry it out. The DDSL(s) are trained to the same level as the DSL. Training received also supports their knowledge of the processes, procedures, and responsibilities of other agencies, particularly children's social care in line with Working Together to Safeguard Children 2018. This training is updated at least every 2 years and in addition to this they regularly (at least annually) refresh and update their knowledge and skills. The DSL is given **additional** time, funding, training, resources, and support needed to carry out the role effectively.

The DSL takes the **lead responsibility** for safeguarding and child protection (including online safety), and this is explicit in their job description. During term time, the DSL/DDSL is available (during school hours) for staff in the school to discuss any safeguarding concerns. The DSL can delegate activities to the DDSL(s); however, the ultimate responsibility remains with them, and this lead responsibility is not delegated. In the absence of the DSL the DDSL(s) will take a lead on safeguarding with clear direction from the Leadership Group.

The DSL acts as a source of support, advice, and expertise for staff. Risk assessments/safety plans will be completed as required and should, where appropriate, involve other agencies, these are reviewed regularly and shared appropriately.

The DSL maintains robust systems to monitor and record training of all staff and update and refresher time scales are evident within the training record. Training is delivered in-line with StaffsSCB and KCSIE 2022. This will include bulletins, briefings, and INSET day training as well as external events attended.

The DSL ensures that all staff and regular visitors have appropriate safeguarding training to equip them for their role in school. This includes training on how to recognise indicators of concern, how to respond to a disclosure from a child and how to record and report this information accurately. The DSL ensures systems in place to induct new staff/governors etc are robust and monitored and any non-compliance shared with Leadership Group/Governing body.

The DSL monitors the electronic case management systems. The Sir Graham Balfour MAT prefers My Concern but recognises partner schools may use other systems to record concerns about children, ensuring that the quality of information is accurate, proportionate, timely and assessment/referrals are made appropriately. The recording and storing of information are kept in-line with the Data Protection Act 2018 and General Data Protection. The safeguarding and child protection records are kept in a secure location, away from academic records and there is a clear recording process of transfer, in or out, which if paper file transfer, using the transfer of records form which is signed by the sending and receiving settings and a copy of this form kept by both.

When a parent chooses to remove their child/ren from school to receive EHE (Elective Home Education), the DSL will pass on any safeguarding concerns and the safeguarding file if there is one, to the EHE Team within Staffordshire (or other) County Council and inform other professionals who may be involved with that child.

The DSL/DDSL monitors the quality of safeguarding files through auditing case files regularly. Appropriate and regular supervision takes place with the DSL and may be extended to other members of staff if we deem this appropriate.

The DSL/DDSL will refer cases of suspected abuse to the local authority children's social care, as required, and support other staff to make these referrals. We understand the importance of attending case conferences and core group meetings as well as Child in Need meetings.

The DSL will liaise with all staff (e.g., pastoral staff, school nurses, SEN staff and Mental Health Leads) on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies.

The DSL/DDSL will represent school at child protection conferences and core group meetings and will be the expert within each setting to support staff in liaising with other agencies, making assessments and any referrals. Any staff member may be required to be part of strategy discussions with other interagency meetings and contribute to the assessment of child/ren. The DSL/DDSL will notify children's social care if a child with a child protection plan is absent for more than two days without explanation.

The DSL/DDSL helps to promote educational outcomes by sharing appropriate information about the welfare, safeguarding and child protection issues that children (including children with or who have previously had a Social Worker) are experiencing, or have experienced, with teachers and school leadership staff. Their role could include ensuring that the schools and their staff, know who these children are, understand their academic progress and attainment and maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face and the additional academic support and adjustments that they could make to best support these children.

The DSL has a good understanding of the community the school serves, the risks and its resilience.

6. The Governing Body

Within the Sir Graham Balfour MAT's individual schools, the Governing Body has a strategic leadership responsibility for safeguarding arrangements, and they **must** ensure that they comply with our duties under legislation. They **must** have regard to this guidance in ensuring policies, procedures and training are effective and comply with the law at all times. See Part 2 Keeping Children Safe in Education 2022 The Headteacher ensures that the policies and procedures, adopted by the governing bodies and proprietors (particularly those concerning referrals of cases of suspected abuse and neglect), are understood, and followed by all staff. These policies are transparent, clear, and easy to understand staff, children and their parents/carers.

The Governing Body ensure that all governors and trustees receive appropriate safeguarding (including online) training at induction. This will equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place are effective and support the delivery of a robust whole school approach to safeguarding and this training is regularly updated. All MAT Trust Board members and members of individual schools' Governing Bodies should be on the register for training annually.

The Governing body and Trust are aware of their obligations under the Human Rights Act 1998, the Equality Act 2010, (including the Technical Guidance on the Public Sector Equality Duty), and their local multi-agency safeguarding arrangements. Further guidance is found in Pg 24-26 Para 82-93 Keeping Children Safe in Education 2022 & Equality Act 2010-Advice for schools

The Governing body facilitate a whole school approach to safeguarding involving everyone in school, ensuring that safeguarding is at the forefront and underpins all relevant aspects of process and policy development. These systems, processes and policies operate with the **best interests** of children at their heart of what we do.

The Governing body has appointed the Designated Safeguarding Lead (DSL) who takes **lead responsibility** for safeguarding and child protection (including online safety). This is explicit in their job description, and they ensure that the DSL understands their responsibility in leading safeguarding across the school. They also ensure that the DSL is given additional time, funding, training, resources, and support needed to carry out the role effectively. See Annex C Keeping Children Safe in Education 2022

The Governing Body has also identified a Deputy Designated Safeguarding Lead(s)(DDSL), who is trained to the same safeguarding standard as the DSL.

The Governing body ensures that children are taught about how to keep themselves and others safe, including online. It is recognised that effective education will be tailored to the specific needs and vulnerabilities of individual children, including children who are victims of abuse, and children with special educational needs or disabilities. There is an expectation that all teachers manage behaviour effectively to ensure a good and safe educational environment and requires teachers to have a clear understanding of the needs of all students.

The following is a resource: - Teaching about relationships, sex and health and there are more listed in Annex B KCSiE including Harmful online challenges and online hoaxes.

Individual schools' Governing Bodies, whilst considering their responsibility to safeguard and promote the welfare of children and provide them with a safe environment in which to learn, are doing all that they reasonably can to limit children's exposure to the online risks from the school's IT system. As part of this process, governing bodies ensure that each school has appropriate filters and monitoring systems in place and regularly review their effectiveness. They ensure that the Leadership Group and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. Governing bodies and proprietors consider the age range of children, the number of children, how often they access the IT system and the proportionality of costs verses safeguarding risks.

In an individual school the Governing Body will ensure compliance with the completion of the Section 175/157 audit return, via the Phew electronic system, to the Local Authority and that any areas of concern in safeguarding are identified and a safeguarding action plan is developed.

They also ensure that the school contributes to inter-agency practice in line with Working Together to Safeguard Children 2018

In an individual school the Governing Body ensures that those involved with the recruitment and employment of staff to work with children have received safer recruitment training and are compliant with safer recruitment procedures. This includes the requirement for appropriate checks to be carried out in line with national guidance. See Part 3 Safer Recruitment Keeping Children Safe in Education 2022

In an individual school the Governing Body has ensured that there is a whistleblowing policy and staff are aware of this policy and understand its content. We have a culture where staff can raise concerns about poor or unsafe practice and such concerns are addressed professionally and sensitively in accordance with agreed whistleblowing procedures Whistleblowing Policy v2.0.pdf

Further guidance on whistleblowing is available here and the NSPCC whistleblowing helpline is available for staff who do not feel able to raise concerns regarding safeguarding failures internally. Staff can call on 0800 028 0285 and the line is available from 8am to 8pm, Monday to Friday. Email: help@nspcc.org.uk

The Designated Teacher

The Governing body have appointed a Designated Teacher (DT) who works with the local authority to promote the educational achievement of registered students in each setting, who are looked after. Our Designated Teacher works across the school to promote and improve educational outcomes for children in care using evidence-based interventions.

Our designated teacher also has responsibility for promoting the educational achievement of children who have left care through adoption, special guardianship, or child arrangement orders or who were adopted from state care, outside of England and Wales. They are appropriately trained and have the relevant qualifications and experience.

The Designated Teacher works closely with the Virtual School to provide the most appropriate support, utilising Student Premium Plus funding, to ensure that they meet the needs identified in the child's personal education plan (PEP). They work with the Virtual School Headteacher, to promote the educational achievement of previously looked after children. Designated Teacher

The Designated Teacher has the details of the Local Authority Personal Advisor who has been appointed to guide and support the care leaver and liaises as necessary regarding any issues of concern affecting the care leaver.

Within the Sir Graham Balfour MAT we are attachment-aware, and trauma-informed and take a relational based approach to supporting the most vulnerable children and will work restoratively with children to improve their outcomes.

We are aware of the additional duties of the virtual school headteacher extended in June 2021, to include a non-statutory responsibility for the strategic oversight of the educational attendance, attainment, and progress of children with a social worker. We understand the role that we play in improving outcomes for children with a social worker.

Virtual Headteacher Role-Children with a social worker

7. Working with parents/carers.

Within the Sir Graham Balfour MAT we are committed to working in partnership with parents/carers to safeguard and promote the welfare of their children, and to support them to understand our statutory responsibilities in this area.

When new students join a school in the Trust, parents/carers will be informed that we have a safeguarding policy. A copy will be provided to parents on request and is available on the school website. Parents/carers will be informed of our legal duty to assist our safeguarding colleagues in other agencies with child protection enquiries and what happens should we have cause to make a referral to the relevant local authority or other agencies.

We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission, or if it is necessary to do so to safeguard a child from harm.

We will seek to share with parents/carers any concerns we may have about their child before making a referral, unless to do so may place a child at increased risk of harm. A lack of parental engagement or agreement regarding the concerns the school has about a child will not prevent the DSL from making a referral to the local authority in those circumstances and where it is appropriate to do so.

To keep children safe and provide appropriate care for them, the school requires parents to provide accurate and up to date information regarding:

- Full names and contact details of all adults with whom the child normally lives.
- Full names and contact details of all persons with parental responsibility (if different from above).
- Emergency contact details (if different from above) and **at least 2 contacts**.
- Full details of any other adult authorised by the parent to collect the child from school (if different from the above).
- Any legal or criminal changes which effects parental responsibility e.g., bail conditions, court orders, Special Guardianship orders, Child arrangement orders etc

The school will retain this information on the student file. The school will only share information about children with adults who have parental responsibility for a child or where a parent has given permission and the school has been supplied with the adult's full details in writing.

We recognise that we are likely to be in regular contact with parents and carers. We will use these communications to reinforce the importance of children being safe online and parents/carers are likely to find it helpful to understand what systems schools use to filter and monitor online use. It will be especially important for parents/carers to be aware of what their children are being asked to do online, including the sites they will be asked to access and be clear who from the school (if anyone) their child is going to be interacting with online.

Within the Sir Graham Balfour MAT we update parents about safeguarding through newsletters/ website/notice board in reception.

8. Staffordshire Early Help

Any child may benefit from early help, but **all** staff are particularly alert to the potential need for early help for a child who: -

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (whether or not they have a statutory Education, Health and Care Plan)
- has a mental health need
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
- is frequently missing/goes missing from school, care or from home.
- is at risk of modern slavery, trafficking, sexual or criminal exploitation.
- is at risk of being radicalised or exploited
- has a family member in prison, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug or alcohol misuse, adult mental health issues and domestic abuse.
- is misusing alcohol or other drugs themselves.
- has returned home to their family from care
- is at risk of 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
- is a privately fostered child and
- is persistently absent from education, including persistent absences for part of the school day

The DSL ensures that all staff are aware of the early help process and understand their role in it. This includes identifying emerging problems, liaising with the DSL/DDSL, sharing information with other professionals to support early identification and assessment and, in some cases, acting as the **lead professional** in undertaking an early help assessment.

Guidance documents can be accessed at the following links:

- [Early Help - SSCB](#)
- [Threshold Document - StaffsSCB](#)

9. What happens if a referral is deemed necessary to escalate beyond early help.

Child in Need (Section 17)

If the DSL considers that the welfare concerns indicate that a Child in Need referral is appropriate, they will speak with parents/child and obtain their consent for referral to Staffordshire Children's Advice and Support (SCAS), or the appropriate social care team if a different authority, to request an assessment. If parents refuse to give consent, but the child's needs are not being met, the DSL will discuss these issues with SCAS. Appropriate school staff will attend Child in Need (CIN) meetings convened by Children's Social Care when children are deemed to require Section 17 services.

Child Protection (Section 47)

If the local authority has reasonable cause to suspect that a child is suffering, or likely to suffer, significant harm, they make enquires under Section 47 to enable them to decide whether they should take any action to safeguard and promote the child's welfare. This duty also applies if a child is subject to an emergency protection order (under S44 of the Children Act 1989) or in police protective custody (under S46 of the Children Act 1989).

Children's Services will convene an Initial Child Protection Conference (ICPC) once a child protection enquiry under Section 47 of the Children Act 1989 has been undertaken and the child is judged to be at continuing risk of significant harm. A review conference (RCPC) will take place once a child has been made the subject of a Child Protection Plan to monitor the safety of the child and the required reduction in risk. Between conferences regular meetings of a core group will take place to monitor the progress of the child protection plan.

The DSL/DDSL (sometimes other staff members) will attend the child protection conference on behalf of the school. The person attending will have as much relevant and up to date information about the child as possible. They will contribute to a recommendation on the risks/protective factors for the family from their information and a view on the need for a child protection plan. We understand the importance of attendance and contribution at these conferences and whether we attend or not we know that there is a requirement to complete a report containing these contributions.

Child protection conferences can be upsetting for parents. We recognise that we are likely to have more contact with parents than other professionals involved and will work in an open, honest, and transparent way with any parent whose child has been referred to SCAS or whose child is subject to a child protection plan. Our responsibility is to promote the protection and welfare of all children and the aim is to achieve this in partnership with our parents/carers, wherever possible.

10. Escalation process

Staffordshire Safeguarding Children Board expects members of staff working directly with families to share information appropriately and work to plans agreed in all relevant forums. Good practice includes the expectation that constructive challenge amongst colleagues within agencies, and between agencies, provides a healthy approach to the work.

This process will be kept as simple as possible and the aim will be to resolve difficulties at a professional practitioner level, wherever possible and always in a restorative way. We recognise that differences in status and experience may affect the confidence of some workers to pursue this course of action, and support should be sought from the DSL/DDSL.

If we believe that concerns regarding a child are not being addressed and outcomes are not improving, we understand the expectations that we will escalate concerns in line with the [SSCB Escalation policy 2022](#), until a satisfactory conclusion is reached.

11. A safer school culture

Safer Recruitment and Selection

Within the Sir Graham Balfour MAT we pay full regard to 'Keeping Children Safe in Education 2022'. Our Safer Recruitment and selection practice includes scrutinising applicants, verifying identity, checking academic or vocational qualifications, obtaining professional and character references, checking previous employment history, and ensuring that a candidate has the health and physical capacity for the job. It also includes undertaking interviews and appropriate checks including criminal record checks (DBS checks), barred list checks, prohibition checks whether they are known to the police and/or social care, if they have been disqualified from providing childcare and any relevant overseas information. Evidence of these checks is recorded on each school's Single Central Record.

Staff who have lived or worked outside the UK **will** undergo the same checks as all other staff, even if they have never been to the UK. We will ensure that any other appropriate checks are carried out so that any relevant events that occurred outside the UK can be considered. These checks could include criminal records checks for overseas applicants and for teaching positions obtaining a letter (via the applicant) from the professional regulating authority in the country (or countries) in which the applicant has worked confirming that they have not imposed any sanctions or restrictions, and or that they are aware of any reason why they may be unsuitable to teach.

Guidance:

[Application process for criminal records checks overseas](#)
[Regulated professions database](#)
[UK Centre for Professional Qualifications](#)

Separate barred list checks are only be carried out in the following circumstances:

- for newly appointed staff who are engaging in regulated activity, pending the receipt of an Enhanced Certificate with Barred List information from the Disclosure and Barring Service (DBS) (and where all other relevant checks as per paragraph 213 have been carried out); or,

- where an individual has worked in a post in a school or college that brought them into regular contact with children or young persons which ended not more than three months prior to that person's appointment to the organisation (and where all other relevant checks as above have been carried out).

All recruitment materials will include reference to the school's commitment to safeguarding and promoting the wellbeing of students.

Relevant staff have undertaken appropriate training in Safer Recruitment.

One of the trained safer recruitment staff will be involved in all staff and volunteer recruitment processes and sit on the recruitment panel. A member(s) of the Governing Body has received Safer Recruitment training.

Induction

All staff will be made aware of the systems we have in place to support safeguarding. These are explained as part of staff induction including:-

- The Safeguarding policy.
- The Achievement and Positive Behaviour policy.
- Child on Child Abuse procedure
- The Staff Code of Conduct.
- The safeguarding response to children who go missing from education; and
- The role of the DSL (including the identity of the DSL and any deputies).
- At least part one of KCSIE 2022.

If staff, supply staff, visitors, volunteers, or parent helpers are working with children alone they will, wherever possible, be visible to other members of staff. They will be expected to inform another member of staff of their whereabouts in school, who they are with and for how long. Doors should have a clear glass panel in them and where possible be left open. No visitors, volunteers or parent helpers will be left unsupervised with children or out of sight of the teacher or member of staff in charge. It is the responsibility of the member of staff to ensure this is the case.

Guidance about acceptable conduct and safe practice will be given to all staff and volunteers during induction. These are sensible steps that every adult should take in their daily professional conduct with children. All staff and volunteers are expected to carry out their work in accordance with this guidance and will be made aware that failure to do so could lead to disciplinary action.

Use of reasonable force

There are circumstances when it is appropriate for staff in school to use reasonable force to safeguard children and young people. The term 'reasonable force' covers the broad range of actions used by staff that involves a degree of physical contact to control or restrain children. This can range from guiding a child to safety by the arm, to more extreme circumstances such as breaking up a fight or where a young person needs to be restrained to prevent violence or injury.

'Reasonable' in these circumstances means 'using no more force than is needed'. The use of force may involve either passive physical contact, such as standing between students or blocking a student's path, or active physical contact such as leading a student by the arm out of the classroom. Departmental advice for schools is available [here](#)

When using reasonable force in response to risks presented by incidents involving children including any with SEN or disabilities, or with medical conditions, staff should consider the risks carefully.

By planning positive and proactive behaviour support, for instance by drawing up individual behaviour plans for more vulnerable children and agreeing them with parents and carers, we will reduce the occurrence of challenging behaviour and the need to use reasonable force.

12. Keeping children safe in education 2022 - Specific Safeguarding issues.

All staff have an awareness of the following safeguarding issues through regular training and briefings. Staff are aware that these behaviours can make children vulnerable and put them in danger and that often these issues overlap. Please read and refer to Appendix 2 for additional information and guidance on the below topics.

- Abuse (incl Physical/Emotional/Sexual/Neglect) Annex 1
- Behaviours linked to safeguarding issues
- Bullying including cyberbullying
- Child on child abuse (inc sexual violence and sexual harassment/sexting-sharing of nude/semi-nude images & upskirting)
- Children and the court system
- Children missing from education
- Child missing from home or care
- Child Criminal Exploitation (CCE)
- Child sexual exploitation (CSE)
- County Lines
- Domestic abuse
- Drugs
- Fabricated or induced illness
- Faith abuse
- Female genital mutilation (FGM)
- Forced marriage
- Gangs and youth violence
- Gender-based violence/violence against women and girls (VAWG)
- Homelessness
- Mental health
- Online safety
- Private fostering
- Preventing radicalisation
- Prevent Duty and Channel
- Serious violence
- Trafficking

For further information, advice and guidance on these issues please see Annex 2 of this document.

13. Children potentially at greater risk of harm

All children should be protected however the staff and Governing Body recognise that some groups of children are potentially at greater risk of harm than others. This list is not exhaustive but highlights some of these groups: -

- Children who need a social worker (Child in Need & Child Protection)
- Children missing from education

- Elective Home Education (EHE)
- Children requiring mental health support
- Looked after children and previously looked after children
- Children with special educational needs & disabilities/health issues
- Children who are lesbian, gay, bi or trans (LGBT)

Paragraphs 170-204 of Keeping Children Safe 2022 explain in more detail about these groups. We support these groups by having: -

- **Vigilance:** to have adults notice when things are troubling them
- **Understanding and action:** to be heard and understood; and to have that understanding acted upon.
- **Stability:** to be able to develop an on-going stable relationship of trust with those helping them.
- **Respect:** to be treated with the expectation that they are competent, rather than not.
- **Information and engagement:** to be informed about and involved in procedures, decisions, concerns and plans.
- **Explanation:** to be informed of the outcome of assessments, decisions and how they have been reached, positive or negative.
- **Support:** to be provided with support in their own right as well as a member of their family.
- **Advocacy:** to be provided with advocacy, to assist them in putting forward their views.

Alternative Provision

Within the Sir Graham Balfour MAT we know that the cohort of students in our provision often have complex needs, our Governing bodies/proprietors are aware of this additional risk of harm that students may be vulnerable to.

DfE Guidance

- Alternative provision
- Education for children with health needs who cannot attend school

14. Educational visitors to school.

We will undertake risk assessment and use professional judgement and experience when deciding whether to seek an enhanced DBS for any volunteer not engaging in regulated activity. In doing so we will consider:

- What we know about the individual/company, including formal and informal information offered by staff, parents, other establishments, or volunteers.
- Whether the individual/company has other employment or undertakes voluntary activities where references can be advised, and suitability recorded.
- Whether the role is eligible for an enhanced DBS check
- We will clearly have decided the level of supervision required through risk assessment – the supervision will be “reasonable in all the circumstances to ensure the protection of children” as stated in KCSIE 2022

We have clear visitor’s procedure that enables us to offer student experiences of meeting other professionals to extend knowledge and curriculum. This clearly states whether they are supervised or unsupervised within the school.

15. Allegations made against/concerns raised in relation to teachers, including supply teachers, other staff, volunteers, and contractors

Our aim is to provide a safe and supportive environment securing wellbeing and best possible outcomes for the children at each school in the Trust. We take all possible steps to safeguard children and to ensure that the adults who work within the Sir Graham Balfour MAT are safe to work with children. However, we do recognise that sometimes the behaviour of adults may lead to an allegation of abuse being made.

The Governing Body ensures that there are procedures in place for dealing with the two sections covering two levels (see below) of concern and/or allegations against staff members, supply staff, volunteers, and contractors.

- Allegations that **may** meet the harms threshold.
- Allegation/concerns that do not meet the harms threshold, referred to for the purposes of this guidance as '**low level concerns**'.

Allegations that may meet the harms threshold

We have an good understanding and give due regard to Part 4 of Keeping Children Safe in Education 2022 guidance and SSCB Allegations of abuse made against a person working with children where it is alleged that anyone working in our education setting providing education for children under 18 years of age, including supply teachers, volunteers and contractors has:

- behaved in a way that has harmed a child or may have harmed a child and/or
- possibly committed a criminal offence against or related to a child and/or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

This relates to members of staff, supply staff, volunteers, and contractors, who are currently working in any education setting, regardless of whether the school or college is where the alleged abuse took place. Allegations against a teacher who is no longer teaching and/or historical allegations of abuse will be referred to the police.

We understand that if we are not the employer of an individual, we still have responsibility to ensure allegations are dealt with appropriately. In no circumstances will we decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome. The Governing body will discuss with the agency whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, whilst they carry out their investigation.

If an allegation is made or information is received about an adult who works at the school which indicates that they may be unsuitable to work with children, the member of staff receiving the information should inform the Headteacher immediately. Should an allegation be made against the Headteacher, this will be reported to the Chair of the Governing Body. If neither the Headteacher nor Chair of Governing Body is contactable on that day, the information must be passed to and dealt with by either the member of staff acting as Headteacher or the Vice Chair of Governors.

The Headteacher or Chair of Governors will seek advice from the Local Authority Designated Officer (LADO) within one working day. No member of staff or the governing body will undertake further investigations before receiving advice from the LADO.

Allegation/concerns that do not meet the harms threshold – referred to for the purposes of this guidance as 'low level concerns'.

Within the Sir Graham Balfour MAT we promote an open and transparent culture in which **all** concerns about adults are dealt with promptly and appropriately. Creating this culture enables us to identify inappropriate, problematic, or concerning behaviour early, minimising the risk of abuse and ensuring that adults who work in or on behalf of the school are clear about professional boundaries and act within them in accordance with our ethos and values.

What is a low-level concern?

Low level does not mean that it is insignificant. It is any concern, no matter how small, and even if no more than causing a sense of unease or nagging doubt that an adult working in or on behalf of the school may have acted in a way that is: -

- inconsistent with the staff code of conduct, including inappropriate conduct outside of work and
- does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children
- having favourites
- taking photographs of children on their mobile phone, contrary to school policy
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door, or
- humiliating students

All staff have a good understanding of what constitutes a low-level concern, and in each individual school the Governing Body ensure that these low-level concerns are included as part of the staff code of conduct and safeguarding policies as set out in Part two of KCSIE 2022

Sharing low-level concerns

We understand how crucial it is that all low-level concerns are shared responsibly with the right person and recorded and dealt with appropriately. Ensuring they are dealt with effectively will also protect those working in or on behalf of our setting from potential false allegations or misunderstandings

If we are in any doubt as to whether information shared about a member of staff as a low-level concern in fact meets the harms threshold we will consult with the LADO.

Any member of staff or volunteer who does not feel confident to raise their concerns with the Headteacher or Chair of Governors knows to contact the LADO on 0300 111 8007.

The school has a legal duty to refer to the Disclosure and Barring Service (DBS) anyone who has harmed, or poses a risk of harm, to a child, or if there is reason to believe the member of staff has committed one of a number of listed offences, and who has been removed from working (paid or unpaid) in regulated activity or would have been removed had they not left. The DBS will consider whether to bar the person. If these circumstances arise in relation to a member of staff at the school, a referral will be made as soon as possible after the resignation or removal of the individual in accordance with advice from the LADO and/or HR. The DSL has a responsibility to inform Barring service.

16. Information sharing

We work in partnership and endeavour to establish effective working relationships with parents, carers, and colleagues from other agencies in line with Working Together 2018 & Information sharing advice for safeguarding practitioners

Information sharing is vital in identifying and tackling all forms of abuse and neglect, and in promoting children's welfare, including their educational outcomes. Schools have clear powers to share, hold and use information for these purposes.

As part of meeting a child's needs, the Governing body recognise the importance of information sharing between practitioners and local agencies. This includes ensuring arrangements are in place to set out clearly the processes and principles for sharing information within the setting and with children's social care, the safeguarding partners, other organisations, agencies, and practitioners as required.

We are proactive in sharing information as early as possible to help identify, assess, and respond to risks or concerns about the safety and welfare of children, whether this is when problems are first emerging, or where a child is already known to the local authority children's social care.

The Governing body are aware that among other obligations, the Data Protection Act 2018 and the GDPR place duties on organisations and individuals to process personal information fairly and lawfully and to keep the information they hold safe and secure. The Governing body ensures that relevant staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR.

Where children leave schools within the Sir Graham Balfour MAT, the DSL will ensure that any relevant Safeguarding file is transferred to the new setting as soon as possible, ensuring secure transit, with confirmation of receipt.

In addition to the safeguarding file, the DSL will also consider if it would be appropriate to share any information with the new school/college in advance of the child leaving. For example, information that would allow the new setting to continue supporting the victims of abuse and have that support in place for when the child arrives.

The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.

Guidance documents:

- Data Protection: Toolkit for schools

17. Managing complaints

Within the Sir Graham Balfour MAT's ethos and culture, we encourage children and parents/carers to talk to us if they are unhappy with anything to do with school. We have a robust internal investigation process.

The complaints policy states clearly the various stages of complaint and where to escalate concerns following completion and outcome of the complaints process. The complaints policy is available on the school website for parents/carers and is also available on request.

Safeguarding concerns should be raised with school immediately. If a concern means a child is at immediate risk, then the individual needs to contact Staffordshire Childrens Advice and Support Team on (0300 111 8007). All visitors are given safeguarding information which outlines how to share concerns and code of conduct expected by visitors/contractors.

18. Site Security

Within the Sir Graham Balfour MAT our schools provide a secure site which is controlled by precise management directives, but the site is only as secure as the people who use it. All people on site must adhere to the rules which govern it. Laxity can cause potential problems with safeguarding, therefore: -

- Gates are closed during the school day; visitors gain access through the main entrance.
- Visitors, volunteers, and students must only enter through the main entrance and after signing in at the office will be issued with a school lanyard or visitor's pass. School has a clear system of ensuring staff are accompanied / supervised by regulated staff member. Any visitor on site who is not identifiable by a visitor's pass will be challenged by any staff member and this will be reported to a member of the Leadership Group.
- Parents, carers, and grandparents attending functions have access only through the designated and supervised entrances, with tickets for visitors for appropriate school events.
- Children will only be allowed home with adults with parental responsibility or confirmed permission.
- Empty classrooms should have closed windows and doors.
- Children should never be allowed to leave school alone during school hours unless collected by an adult such as a parent who is doing so for a valid reason, or unless they have permission, as checked by school staff, to do so. They should report to the office to do this.
- Where a student leaves site without permission a parent/carer must be contacted and if the student has a social worker they must also be contacted. Where the students is a LAC the police should also be contacted.
- Members of staff are always on duty at break times.
- A health and safety audit are completed annually with risk assessment/safety planning and forms part of the Governors' annual report. This will include a fire evacuation and Prevent risk assessment.
- The risk management of site security is managed by senior leaders/governance, and we have a clear system of risk assessments and review timescales of these.

Appendix 1

Definitions and Indicators of Abuse

1. **Neglect** is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing, and shelter (including exclusion from home or abandonment).
- Protect a child from physical and emotional harm or danger.
- Ensure adequate supervision (including the use of inadequate caregivers); or
- Ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

The following may be indicators of neglect (this is not designed to be used as a checklist):

- Constant hunger.
- Stealing, scavenging and/or hoarding food.
- Frequent tiredness or listlessness.
- Frequently dirty or unkempt.
- Often poorly or inappropriately clad for the weather.
- Poor school attendance or often late for school.
- Poor concentration.
- Affection or attention seeking behaviour.
- Illnesses or injuries that are left untreated.
- Failure to achieve developmental milestones, for example growth, weight.
- Failure to develop intellectually or socially.
- Responsibility for activity that is not age appropriate such as cooking, ironing, caring for siblings.
- The child is regularly not collected or received from school; or
- The child is left at home alone or with inappropriate carers.
- Adolescent neglect
- Affluent neglect

2. Physical Abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

The following may be indicators of physical abuse (this is not designed to be used as a checklist):

- Multiple bruises in clusters, or of uniform shape.
- Bruises that carry an imprint, such as a hand or a belt.
- Bite marks.
- Round burn marks.
- Multiple burn marks and burns on unusual areas of the body such as the back, shoulders, or buttocks.
- An injury that is not consistent with the account given.
- Changing or different accounts of how an injury occurred.
- Bald patches.
- Symptoms of drug or alcohol intoxication or poisoning.
- Unaccountable covering of limbs, even in hot weather.
- Fear of going home or parents being contacted.

- Fear of medical help.
- Fear of changing for PE.
- Inexplicable fear of adults or over-compliance.
- Violence or aggression towards others including bullying; or
- Isolation from peers.

3. Sexual Abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

The following may be indicators of sexual abuse (this is not designed to be used as a checklist):

- Sexually explicit play or behaviour or age-inappropriate knowledge.
- Anal or vaginal discharge, soreness, or scratching.
- Reluctance to go home.
- Inability to concentrate, tiredness.
- Refusal to communicate.
- Thrush, persistent complaints of stomach disorders or pains.
- Eating disorders, for example anorexia nervosa and bulimia.
- Attention seeking behaviour, self-mutilation, substance abuse.
- Aggressive behaviour including sexual harassment or molestation.
- Unusual compliance.
- Regressive behaviour, enuresis, soiling.
- Frequent or open masturbation, touching others inappropriately.
- Depression, withdrawal, isolation from peer group.
- Reluctance to undress for PE or swimming; or
- Bruises or scratches in the genital area.

4. Emotional Abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may also involve seeing or hearing the ill-treatment of another person. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment.

The following may be indicators of emotional abuse (this is not designed to be used as a checklist):

- The child consistently describes him/herself in very negative ways – as stupid, naughty, hopeless, ugly.
- Over-reaction to mistakes.
- Delayed physical, mental, or emotional development.
- Sudden speech or sensory disorders.

- Inappropriate emotional responses, fantasies.
- Neurotic behaviour: rocking, banging head, regression, tics and twitches.
- Self-harming, drug, or solvent abuse.
- Fear of parents being contacted.
- Running away.
- Compulsive stealing.
- Appetite disorders - anorexia nervosa, bulimia; or
- Soiling, smearing faeces, enuresis.

N.B.: Some situations where children stop communicating suddenly (known as “traumatic mutism”) can indicate maltreatment.

Parental response

Research and experience indicate that the following responses from parents may suggest a cause for concern across all four categories:

- Delay in seeking treatment that is obviously needed.
- Unawareness or denial of any injury, pain, or loss of function (for example, a fractured limb).
- Incompatible explanations offered, several different explanations or the child is said to have acted in a way that is inappropriate to her/his age and development.
- Reluctance to give information or failure to mention other known relevant injuries.
- Frequent presentation of minor injuries.
- A persistently negative attitude towards the child.
- Unrealistic expectations or constant complaints about the child.
- Alcohol misuse or other drug/substance misuse.
- Parents request removal of the child from home; or
- Violence between adults in the household.
- Evidence of coercion and control.

Disabled Children-When working with children with disabilities, practitioners need to be aware that additional possible indicators of abuse and/or neglect may also include:

- A bruise in a site that may not be of concern on an ambulant child such as the shin, maybe of concern on a non-mobile child.
- Not getting enough help with feeding leading to malnourishment.
- Poor toileting arrangements.
- Lack of stimulation.
- Unjustified and/or excessive use of restraint.
- Rough handling, extreme behaviour modification such as deprivation of medication, food, or clothing, disabling wheelchair batteries.
- Unwillingness to try to learn a child’s means of communication.
- Ill-fitting equipment, for example, callipers, sleep boards, inappropriate splinting.
- Misappropriation of a child’s finances; or
- Inappropriate invasive

Appendix 2

Specific safeguarding issues

Behaviours linked to safeguarding issues

All staff have an awareness of safeguarding issues that can put children at risk of harm. Presenting behaviours linked to issues such as drug taking and or alcohol misuse, deliberately missing education, serious violence (including the link to county lines), radicalisation and consensual and non-consensual sharing of nude and semi-nude images and/or videos can be signs that children are at risk.

Bullying, including Cyberbullying Anti-Bullying Policy v2.0.pdf

Bullying may be defined as deliberately hurtful behaviour, usually repeated over a period, where it is difficult for those bullied to protect themselves. It can take many forms, but the main types are:

- Physical (e.g., hitting, kicking, theft)
- Verbal (e.g., racist, or homophobic remarks, threats, name-calling)
- Emotional (e.g., isolating an individual from the activities and social acceptance of their peer group)
- Cyberbullying (including sexting)

Guidance on bullying can be found in the following links:

[Preventing & tackling bullying](#)
[Cyberbullying advice](#)

Child on child abuse (incl sexual violence and sexual harassment)

All staff have the knowledge and awareness that children are capable of abusing other children (including online). All staff are clear about this school's policy and procedure regarding child-on-child abuse. We have a separate Child-on-Child Abuse Procedure in addition to anti-bullying and behaviour policies to guide, inform and support children, staff and parents/carers – see Appendix 7.

Child-on-child abuse can occur, both physically and verbally, either online or face to face, between two children of any age and sex, with a single child or group of children and can happen both inside and outside of the setting. Children who are victims of this abuse, will find the experience stressful and distressing and it is likely to have an adverse effect their educational attainment. This type of abuse can exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable.

Within the Sir Graham Balfour MAT all staff recognise the indicators and signs of child-on-child abuse and know how to identify it and respond to reports of it. They understand the importance of the **timely** challenge of inappropriate behaviours between peers, many listed below, that are abusive in nature. They are aware of the importance of: -

- Making clear that child-on-child abuse including sexual violence and sexual harassment, is never acceptable and that that we have a zero-tolerance approach.
- Not dismissing this abuse as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”; and
- Challenging behaviours (potentially criminal in nature), such as physical and sexual assaults e.g. grabbing bottoms, breasts, and genitalia, flicking bras and the lifting up of skirts.

All staff know that if we do not challenge and support children that this will lead to a **culture** of unacceptable behaviours, an unsafe environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not coming forward to report it.

We know that the initial response to a report from a child is vitally important. We do not want to miss that opportunity and so we reassure victims that their reports are being taken seriously and that they will be supported and kept safe. We never give victims the impression that they are creating a problem by reporting sexual violence or sexual harassment. We reassure victims that they should not feel ashamed for making a report.

We have well promoted and easily understood systems in place so that children feel confident to knowing their concerns will be treated seriously.

All victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward, and that they will be supported and kept safe. Abuse that occurs online or outside of the school or college will not be downplayed and will be treated equally seriously. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report. We will ensure that children know that the law is in place to protect them rather than criminalise them, and we will be explained in such a way that avoids alarming or distressing them.

Staff are aware of the groups that are potentially more at risk as evidence shows that girls, children with SEND and LGBT children are at greater risk. The DfE states 'child on child abuse should be taken as seriously as abuse by adults and should be subject to the same child protection procedures.

Victims of child-on-child abuse will be supported by the school's pastoral system and referred to specialist agencies if appropriate. Risk assessment and/or safety planning are an integral part of this support plan, particularly regarding the post incident management.

All staff understand, that even if there are no reports in the setting, this does not mean that it is not happening, it may be the case that it is just not being reported. As such it is important that if staff within the Sir Graham Balfour MAT have any concerns regarding child-on-child abuse, they speak to their Designated Safeguarding Lead (DSL) or deputy (DDSL). Staff will not develop high thresholds before acting.

Child on child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying).
- abuse in intimate personal relationships between peers.
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse).
- sexual violence such as rape, assault by penetration and sexual assault and may include an online element which facilitates, threatens and/or encourages sexual violence. Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- sexual harassment such as sexual comments, remarks about clothes and/or appearance, jokes, taunting and online sexual harassment. This also includes the telling of sexual stories, making lewd comments and calling someone sexual names and physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes, and displaying pictures, photos or drawings of a sexual nature; and online sexual harassment.
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- consensual and non-consensual sharing of nudes and semi-nude images and or videos (also known as sexting or youth produced sexual imagery) Consensual image sharing, especially between older children of the same age, may require a different response. It might not be abusive – but children still need to know it is illegal- whilst non-consensual is illegal and abusive.

- upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm; and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element).

All staff are aware of the importance of understanding intra familial harms and any necessary support for siblings following incidents.

All staff are clear as to the school's or college's policy and procedures with regards to child-on-child abuse and the important role they play in preventing it and responding where they believe a child may be at risk from it.

If staff have a concern about a child or a child makes a report to them, they will follow the safeguarding referral process. As in any case, if staff are in any doubt as to what to do, they should speak to the DSL/DDSL. The Achievement and Positive Behaviour policy will support any sanctions.

The DfE states 'child on child abuse should be taken as seriously as abuse by adults and should be subject to the same child protection procedures.

Children Missing Education

All professionals working with children, as well as the wider community can help by remaining vigilant to children's safety. The law states every child should be receiving an education, and we stand a better chance of ensuring a child's safety if we know where and how they are receiving this. The Education and Inspections Act 2006 places a duty on local authorities in England and Wales to make arrangements to identify children and young people of compulsory school age missing education in their area; we work closely to ensure we put appropriate safeguarding responses in place for children who go missing from education.

Attendance Policy v3.0.pdf

A child going missing, particularly repeatedly, can be a vital warning sign of a range of safeguarding risks, including abuse and neglect, which may include sexual abuse or exploitation; child criminal exploitation; mental health problems; substance abuse and other issues. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of them going missing in future.

The school holds **at least 2** emergency contact numbers for each student. If a child goes missing from the school and we are unable to locate them, we will inform parents/carers and we will also contact the Police to report them missing. This will ensure that the Police and other partners have a true picture of missing episodes, which are indicators of risk for some children.

Please ensure that your policies are clear regarding children going missing from the school site and that **ALL** staff are aware of the processes and the role that they **ALL** play in this. In particular the importance of the completing class registers at the earliest opportunities.

The school will notify the Local Authority of any student who fails to attend school regularly after making reasonable enquiries or has been absent without the school's permission for a continuous period of 10 days or more. The school (regardless of designation) will also notify the Local Authority of any student who is to be deleted from the admission register because s/he:

- Has been taken out of school by their parents and is being educated outside the school system (e.g. elective home education).
- Has ceased to attend school and no longer lives within a reasonable distance of the school at which s/he is registered (moved within the city, within the country or moved abroad but failed to notify the school of the change).
- Displaced because of a crisis e.g. domestic violence or homelessness.
- Has been certified by the school medical officer as unlikely to be in a fit state of health to attend school before ceasing to be of compulsory school age, and neither s/he nor his/her parent has indicated the intention to continue to attend the school after ceasing to be of compulsory school age;
- Is in custody for a period of more than four months due to a final court order and the proprietor does not reasonably believe that s/he will return to the school at the end of that period; or
- Has been permanently excluded.

The school will demonstrate that we have taken reasonable enquiries to ascertain the whereabouts of children that would be considered 'missing'

Child Missing from Home or Care

There are strong links between children involved in criminal and sexual exploitation and other behaviours such as running away from home, care or school, bullying, self-harm, teenage pregnancy, truancy, and substance misuse.

In addition, some children are particularly vulnerable, for example, children with special needs, those in residential or foster care, those leaving care, migrant children, particularly those who are unaccompanied, those forced into marriage, those involved in gangs and unaccompanied asylum-seeking children.

Most children who go missing are not in care and go missing from their family home. However, children who are looked after are much more likely to run away than those who live at home, and over 50% of young people in care have run away at some point.

Guidance document

- Children who run away or go missing from home or care

Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE).

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence.

CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Where DSL/DDSL are concerned regarding student who are displaying behaviours of a young person at risk of CSE/CCE a Risk Factor Matrix will be completed, with a Social Worker if applicable, and sent to catch22 and the

MACE panel for their input. The DSL/DDSL of a school within the Sir Graham Balfour MAT are expected to attend the MACE panel where a student is being discussed.

Child Criminal Exploitation (CCE)

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting, or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm, from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals, (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Some of the following can be indicators of CCE:

- children who appear with unexplained gifts or new possessions.
- children who associate with other young people involved in exploitation.
- children who suffer from changes in emotional well-being.
- children who misuse drugs and alcohol.
- children who go missing for periods of time or regularly come home late.
- children who regularly miss school or education or do not take part in education.

Guidance documents:

- [Safeguarding children who may have been trafficked](#)
- [Child Exploitation - StaffsSCB](#)

Child sexual exploitation (CSE)

CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or nonpenetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge e.g., through others sharing videos or images of them on social media.

CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

The above CCE indicators can also be signs of CSE, as can having older boyfriends or girlfriends and/or suffering from sexually transmitted infections/becoming pregnant.

Guidance documents:

Effective Date: 7th December 2022

Safeguarding Policy

Issue: v6.0

- [Know about CSE](#)

County Lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas (within the UK), using dedicated mobile phone lines or other form of “deal line”.

Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move and/or store drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in several locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children’s homes, and care homes.

Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism (NRM) should be considered. Further information can be found here [National Referral Mechanism](#)

If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation.

Like other forms of abuse and exploitation, county lines exploitation: -

- Can affect any child or young person (male or female) under the age of 18 years.
- Can affect any vulnerable adult over the age of 18 years.
- Can still be exploitation even if the activity appears consensual.
- Can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence.
- Can be perpetrated by individuals or groups, males or females, and young people or adults and
- Is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Guidance Document:

- [Criminal Exploitation of Children and Vulnerable Adults; County Lines](#)
- [County Lines toolkit](#)

Domestic Abuse

Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence, or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass but is not limited to the following types of abuse:

- Psychological
- Physical
- Sexual
- Financial
- Emotional

Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse) Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Domestic abuse affecting young people, can also occur within their personal relationships, as well as in the context of their home life. We will signpost and support children/ young people.

We are an Operation Encompass school and act appropriately when we receive an alert to support the children in the school.

Guidance Documents:

- [Domestic Violence and Abuse](#)
- [Domestic Abuse-Staffsccb](#)
- [NSPCC-Domestic Abuse](#)
- Operation Encompass helpline 0204 513 9990 (8am-1pm Mon-Frid)

Drugs

There is evidence that children and young people are increasingly misusing alcohol and illegal drugs. Consequences range from non-attendance and poor attainment at school, poor health, committing crime to support 'habits' and increased risk of being a victim of violent crime and criminal exploitation, including sexual exploitation.

Guidance Documents:

- [NSPCC-Parental Substance Misuse](#)
- [SSCB-Working with parents who misuse substances](#)
- [Drugs Advise for Schools](#)

Fabricated or Induced Illness (FII)

Fabricated or Induced Illness is a condition whereby a child suffers harm through the deliberate action of their carer, and which is attributed by the adult to another cause.

There may be several explanations for these circumstances, and each requires careful consideration and review. Concerns about a child's health should be discussed with a health professional who is involved with the child.

Guidance Documents:

- [Safeguarding children in whom illness is fabricated or induced](#)
- [Fabricated or induced Illness \(staffsccb.org.uk\)](#)

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL/DDSL are aware of local contact details and referral routes into local housing organisations, so they can raise/progress concerns at the earliest opportunity.

Indicators of risk include household debt, rent arrears, domestic abuse, and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and/or discussion with the Local Housing Authority will be

progressed as appropriate, and in accordance with local procedures, this will **not** replace a referral into children's social care where a child has been harmed or is at risk of harm.

We also recognise that in some cases 16/17 yr olds could be living independently from their parents or guardians and they will require a different level of intervention and support. Children's services will be the lead agency for these young people and the DSL will ensure that appropriate referrals are made based on the child's circumstances.

Honour-based Abuse

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors, when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

Female Genital Mutilation (FGM)

FGM comprises of all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences. It is known by several names including "cutting", "female circumcision" or "initiation". The term female circumcision suggests that the practice is like male circumcision, but it bears no resemblance to male circumcision, and it has serious health consequences with no medical benefits. FGM is also linked to domestic abuse, particularly in relation to "honour-based abuse".

FGM mandatory reporting duty for teachers Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers along with regulated health and social care professionals in England and Wales, to report to the police where they discover (either via disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18.

Those failing to report such cases may face disciplinary sanctions. It is rare to see visual evidence, and children should not be examined but the same definition of what is meant by "to discover that an act of FGM appears to have been carried out" is used for all professionals to whom this mandatory reporting duty applies.

Staff **must** personally report to the police cases where they discover that an act of FGM appears to have been carried out. Unless there is good reason not to, they should still consider and discuss any such case with the DSL (or deputy) and involve children's social care as appropriate. The duty does not apply in relation to at risk or suspected cases (i.e. where staff do not discover that FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or in cases where the woman is 18 or over. In these cases, staff will follow local safeguarding procedures.

Guidance Documents: -

- [Multi Agency Statutory guidance on Female Genital Mutilation](#)
- [Female Genital Mutilation Act 2003](#)

Forced Marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one, entered, **without** the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter a marriage. The threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for

example). Some perpetrators use perceived culture practices, to coerce a person into marriage. Schools and colleges play an important role in safeguarding children from forced marriage.

There are some significant differences between the referral of a concern about a young person being forced into marriage and other child protection referrals. Professionals must be aware that sharing information with a young person's parents, extended family, or members of their community, could put the young person in a situation of significant risk.

Any disclosure that indicates a young person may be facing a forced marriage must be taken seriously by professionals who should also realise that this could be 'one chance to save a life'. A forced marriage is a marriage in which one or both spouses do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual, and emotional pressure. In cases of vulnerable adults who lack the capacity to consent to marriage, coercion is not required for a marriage to be forced.

Guidance Document:

- [Forced Marriage](#)
- [The right to choose: government guidance on forced marriage](#)

Mental Health

All staff have an important role to play in supporting the mental health and wellbeing of students and are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. We have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.

Only appropriately trained professionals will attempt to make a diagnosis of a mental health problem. Education staff, however, are well placed to **observe** children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Where children have suffered abuse and neglect, or other potentially traumatic Adverse Childhood Experiences (ACE), this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour, and education.

Guidance and helpful documents: -

- [Addressing Trauma and Adversity](#)
- [Mental Health and Behaviour in Schools Guidance](#).
- [Preventing and tackling bullying](#)
- [Every Interaction Matters](#)
- [MIND-Parenting Capacity and Mental Health](#)
- [NSPCC-Mental Health and Parenting](#)
- [SSCB-Children & Young People who Self Harm or Disclose an Intent to Die by Suicide](#)
- Staffordshire County Council Resource Bank (sent out at least annually)

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following their child protection policy, and by speaking to the designated safeguarding lead or a deputy.

Online Safety

The use of technology has become a significant component of many safeguarding issues. Child Criminal Exploitation, Child Sexual Exploitation, radicalisation, sexual predation, and technology often provides the platform that facilitates harm.

Within the Sir Graham Balfour MAT we realise that it is essential for children to be safeguarded from potentially harmful and inappropriate online material. We have an effective whole school/college approach to online safety which empowers us to protect and educate students, and staff in their use of technology and establishes mechanisms for us to identify, intervene in, and escalate any concerns where appropriate.

The breadth of issues classified within online safety is considerable, but can be categorised into four areas of risk:

- **Content**: being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.
- **Contact**: being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
- **Conduct**: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying; and
- **Commerce**: risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your students or staff are at risk, please report it to the Anti-Phishing Working Group (<https://apwg.org/>).

We ensure that online safety is a running and interrelated theme whilst devising and implementing policies and procedures. We consider online safety in other relevant policies, when planning curriculum, teacher training, the role and responsibilities of the DSL and parental engagement. We have filters and monitoring systems in place, and these are regulated, and risk assessed as part of the prevent duty.

We have an online safety policy [Online Policy v2.0.pdf](#) which identifies the usage and expected behaviour of children/students. As a school we appreciate the value of technology and that appropriate filters are in place, yet this does not lead to unreasonable restrictions which would limit online teaching and safeguarding.

Education at home/Remote learning: - Where children are being asked to learn online at home, the school will refer to and use the links and resources provided by the DfE; Safeguarding in schools, colleges and other providers and safeguarding in remote education.

Guidance Documents:

Private Fostering

A private fostering arrangement is one that is made privately (without the involvement of a local authority) for the care of a child under the age of 16 (under 18, if disabled) by someone other than a parent or immediate relative. If the arrangement is to last, or has lasted, for 28 days or more, it is categorised as private fostering.

Close relatives are defined as a grandparent, brother, sister, uncle, or aunt (whether of full blood or half blood or by marriage or civil partnership), or a stepparent.

People become involved in private fostering for all kinds of reasons. Examples of private fostering include:

- Children who need alternative care because of parental illness.
- Children whose parents cannot care for them because their work or study involves long or antisocial hours.
- Children sent from abroad to stay with another family, usually to improve their educational opportunities.
- Unaccompanied asylum seeking and refugee children.
- Teenagers who stay with friends (or other non-relatives) because they have fallen out with their parents.
- Children staying with families while attending a school away from their home area.

Staff within the Sir Graham Balfour MAT will notify the DSL/DDSL when they become aware of a private fostering arrangement. There is a mandatory duty on the school to inform Staffordshire Childrens Social Care of a private fostering arrangement by contacting (0800 1313126), who then have a duty to check that the young person is being properly cared for and that the arrangement is satisfactory.

Guidance Document:

- Children Act 1989 – Private Fostering

Preventing Radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools' or colleges' safeguarding approach.

- **Extremism** is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.
- **Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- **Terrorism** is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious, or ideological cause.

Within the Sir Graham Balfour MAT we value freedom of speech and the expression of beliefs and ideology as fundamental rights underpinning our society's values. Students and school staff have the right to speak freely and voice their opinions. However, freedom comes with responsibility and free speech that is designed to manipulate the vulnerable or that leads to violence and harm of others goes against the moral principles in which freedom of speech is valued. Free speech is not an unqualified privilege; it is subject to laws and policies governing equality, human rights, community safety and community cohesion.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

The normalisation of extreme views may also make children and young people vulnerable to future manipulation and exploitation. Within the Sir Graham Balfour MAT it is clear that this exploitation and radicalisation must be viewed as a safeguarding concern and that protecting children from the risk of radicalisation is part of the school's safeguarding duty.

The school's designated safeguarding lead (and any deputies) should be aware of local procedures for making a Prevent referral.

Definitions of radicalisation and extremism, and indicators of vulnerability to radicalisation are in Prevent Duty and Channel

Effective Date: 7th December 2022

Safeguarding Policy

Issue: v6.0

Prevent Duty

The school governors, the Headteacher and the DSL will assess the level of risk within the school and put actions in place to reduce that risk. Risk assessment may include consideration of the school's RE curriculum, SEND policy, the use of school premises by external agencies, integration of students by gender and SEN, anti-bullying policy and other issues specific to the school's profile, community and philosophy.

All schools are subject to a duty to have "due regard to the need to prevent people being drawn into terrorism" (section 26, Counter Terrorism and Security Act 2015). This is known as The Prevent Duty and is part of our schools wider safeguarding obligations.

Designated safeguarding leads and other senior leaders familiarise themselves with the revised Prevent duty guidance: for England and Wales, especially paragraphs 57-76, which are specifically concerned with schools (and covers childcare). We follow the guidance in terms of four general themes: risk assessment, working in partnership, staff training, and IT policies.

The school has a Prevent Single Point of Contact (SPOC) who is the lead within the organisation for safeguarding in relation to protecting individuals from radicalisation and involvement in terrorism: this will normally be the DSL.

The School will monitor online activity within the school to ensure that inappropriate sites are not accessed by students or staff. This is best done using specialist online monitoring software, the Sir Graham Balfour MAT favours SENSO but recognises schools within the MAT may choose to use their own versions.

Channel

Channel is a multi-agency approach to provide support to individuals who are at risk of being drawn into terrorist related activity. It is led by the Staffordshire Police Counter-Terrorism Unit, and it aims to:

- Establish an effective multi-agency referral and intervention process to identify vulnerable individuals.
- Safeguard individuals who might be vulnerable to being radicalised, so that they are not at risk of being drawn into terrorist-related activity; and
- Provide early intervention to protect and divert people away from the risks they face and reduce vulnerability.
- The Channel programme focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. It provides a mechanism for schools to make referrals if they are concerned that an individual might be vulnerable to radicalisation. An individual's participation in the programme is entirely voluntary at all stages.
- Schools have a duty to cooperate with the Channel programme in the carrying out of its functions, and with the Police in providing information about an individual who is referred to Channel (Section 38, Counter Terrorism and Security Act 2015).

Guidance Documents:

- [The Prevent Duty.](#)
- [Educate Against Hate](#)
- [ACT Early | Prevent radicalisation](#)

Serious Violence

All staff should be aware of the indicators, which may signal children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk

of criminal exploitation. All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery.

Guidance documents:

- Home Office Preventing Youth Violence and Gang Involvement
- Criminal Exploitation of Children and Vulnerable Adults; County Lines

Appendix 3

Allegations about a Member of Staff (Incl supply), Governor or Volunteer

1. Inappropriate behaviour by staff/supply staff/volunteers could take the following forms:
 - **Physical**
For example, the intentional use of force as a punishment, slapping, use of objects to hit with, throwing objects, or rough physical handling.
 - **Emotional**
For example, intimidation, belittling, scapegoating, sarcasm, lack of respect for children's rights, and attitudes that discriminate on the grounds of race, gender, disability, or sexuality.
 - **Sexual**
For example, sexualised behaviour towards students, sexual harassment, inappropriate phone calls and texts, images via social media, sexual assault, and rape.
 - **Neglect**
For example, failing to act to protect a child or children, failing to seek medical attention or failure to carry out an appropriate risk assessment.
 - **Spiritual Abuse**
For example, using undue influence or pressure to control individuals or ensure obedience, follow religious practices that are harmful such as beatings or starvation.
2. If a child makes an allegation about a member of staff, supply staff, Governor, visitor or volunteer the Headteacher must be informed immediately. The Headteacher must carry out an urgent initial consideration to establish whether there is substance to the allegation. The Headteacher should not carry out the investigation him/herself or interview students.
3. The Headteacher will exercise and be accountable for their professional judgement on the action to be taken as follows:
 - If the actions of the member of staff, and the consequences of the actions, raise credible Child Protection concerns the Headteacher will notify the Staffordshire Designated Officer (LADO) (0300 111 8007). The LADO will liaise with the Chair of Governors and advise about action to be taken and may initiate internal referrals within Staffordshire Children's Social Care to address the needs of children likely to have been affected.
 - If the actions of the member of staff, and the consequences of the actions, do not raise credible child protection concerns, but do raise other issues in relation to the conduct of the member of staff or the student. These should be addressed through the school's own internal procedures.
 - If the Headteacher decides that the allegation is without foundation and no further formal action is necessary, all those involved should be informed of this conclusion, and the reasons for the decision should be recorded on the child safeguarding file.
4. Where we are not the employer of an individual, we still have responsibility to ensure allegations are dealt with appropriately and that they liaise with relevant parties (this includes supply teachers and volunteers). In no circumstances will the school/college decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome. The Governing body will discuss with the agency whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, whilst they carry out their investigation.
5. Where an allegation has been made against the Headteacher, then the Chair of the Governing Body takes on the role of liaising with the LADO in determining the appropriate way forward. Managing Allegations of Abuse against a person who works with children

Appendix 4

Indicators of Vulnerability to Radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.

Extremism is defined by the Government in the Prevent Strategy as: Vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas.

Extremism is defined by the Crown Prosecution Service as:

- The demonstration of unacceptable behaviour by using any means or medium to express views which
 - Encourage, justify, or glorify terrorist violence in furtherance of beliefs
 - Seek to provoke others to terrorist acts
 - Encourage other serious criminal activity or seek to provoke others to serious criminal acts or
 - Foster hatred which might lead to inter-community violence in the UK.

There is no such thing as a “typical extremist”: those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Students may become susceptible to radicalisation through a range of social, personal, and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school staff can recognise those vulnerabilities.

Indicators of vulnerability include:

- Identity Crisis – the student is distanced from their cultural/religious heritage and experiences discomfort about their place in society.
- Personal Crisis – the student may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging.
- Personal Circumstances – migration; local community tensions; and events affecting the student’s country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy.
- Unmet Aspirations – the student may have perceptions of injustice; a feeling of failure; rejection of civic life.
- Experiences of Criminality – which may include involvement with criminal groups, imprisonment, and poor resettlement/reintegration.
- Special Educational Need – students may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

This list is not exhaustive, nor does it mean that all children experiencing the above are at risk of radicalisation for the purposes of violent extremism.

More critical risk factors could include:

- Being in contact with extremist recruiters.
- Family members convicted of a terrorism act or subject to a Channel intervention.
- Accessing violent extremist websites, especially those with a social networking element.
- Possessing or accessing violent extremist literature.
- Using extremist narratives and a global ideology to explain personal disadvantage.
- Justifying the use of violence to solve societal issues.
- Joining or seeking to join extremist organisations.
- Significant changes to appearance and/or behaviour; and
- Experiencing a high level of social isolation resulting in issues of identity crisis and/or personal crisis.

Appendix 6

Role of the Staffordshire LADO

The Staffordshire LADO (Local Authority Designated Officer) promotes a safer children's workforce by providing effective guidance, advice, and investigation oversight to cases. They may be able to offer advice and assist with communication in situations which sit outside the statutory criteria, albeit at the discretion of the LADO Duty Officer and where the broader goals of a safer children's workforce are relevant.

The service will give advice on how concerns or allegations should be investigated, including if a referral needs to be raised with the Police and/or Children's Social Care. Staffordshire LADO is not directly responsible for investigatory activities but will actively support any investigation and give advice around a range of parameters including suspension, possible media interest, when to tell the adult, and ensure all interested parties are appropriately linked together. They will retain oversight of individual cases to ensure concerns or allegations are investigated thoroughly in a fair and timely manner, and will advise in relation to any subsequent duties to communicate with regulatory bodies and/or the DBS.

The StaffsSCB inter-agency procedures for: Managing Allegations of Abuse against a person who works with children is based on the framework for dealing with allegations made against an adult who works with children, this is detailed in Working Together 2018 and should be followed by all organisations providing services for children and young people. Compliance with these procedures will help to ensure that allegations are dealt with consistently and in a timely manner, that a thorough, proportionate, and fair process is followed and that processes are open to challenge.

Arrangements for managing concerns or allegations of this nature should be robust and effective in keeping children safe. All allegations should be taken seriously, approached with an open mind, and not be driven by preconceived opinions about whether a child has or has not been harmed.

Guidance for Safer Working Practice is available which will help individuals form judgements on what may constitute behaviour that is unsafe or abusive.

Who to refer concerns to:

All reports of concern or allegation to the Staffordshire LADO (Local Authority Designated Officer) that an adult working or volunteering with children:

- behaved in a way that has harmed a child or may have harmed a child.
- possibly committed a criminal offence against or related to a child.
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children

Step 1: Follow KCSIE 2022 Guidance. Headteacher/ Chair of Governors will contact the LADO on 0300 111 8007

Step 2: Staffordshire Childrens Advice and Support Team will ensure that the matter is passed promptly to the Staffordshire LADO Duty Officer and assist in initiating any additional safeguarding activities.

If your concern or allegation is urgent and outside of office hours telephone: 0345 6042 886 (the Emergency Duty Team).

This single referral point will provide a responsive and inclusive service for all children's workforce sectors, focus the advice and support where it is needed most and enable the team to continue to work effectively with partners.

Appendix 7

Sir Graham Balfour MAT (in conjunction with Staffordshire Safeguarding Children Board)

Child on child Abuse Procedure 2022-2023 (Including Sexual Violence and Sexual Harassment between children)

Aspects of the procedure are within the Keeping Children Safe in Education 2021 and Achievement and Positive Behaviour Policy

Purpose of the Procedure

The purpose of this procedure is to:

- Provide clarity on what is meant by peer-on-peer abuse in all its forms
- Understand the culture within the setting
- Evidence how ALL staff support the children in the setting
- Give children confidence that they will be supported and informed
- Give parents/carers the assurance that staff know how to deal with this abuse
- Evidence how safeguarding staff handle reports/concerns/disclosures
- Inform of the post incident management process/ongoing support/safety planning

Child on child abuse - What is it?

Child on child abuse is any form of physical, sexual, emotional and financial abuse using coercion/power and/or control by an individual child or group of children and is exercised between children and within their relationships (both intimate and non-intimate).

All staff in Sir Graham Balfour recognise that children can abuse their peers and are aware of the different forms that these safeguarding issues take:

- Bullying-emotional/physical so **repeated** behaviour which is intended to hurt someone either emotionally or physically (hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm)
- Online/Cyber bullying
- Prejudiced relating bullying
- Sexual Violence, Sexual Harassment and Sexually Harmful behaviour.
- Sexting sharing of nude or indecent (youth produced sexual imagery).
- Abuse in intimate relationships, including teenage relationship abuse
- Initiation/hazing type violence and rituals.
- Hate crime
- Gang association and serious violence - County Lines
- Radicalisation

This abuse can be motivated by perceived differences. e.g. on grounds of race, religion, gender, sexualorientation, disability or other differences and result in significant, long lasting, and traumatic isolation, intimidation, and/or violence to the victim.

We will record all instances of Child on Child Abuse and inform parents /carers of such incidents.

Sexual Violence, Sexual Harassment and Sexually Harmful Behaviour (SHB)

Sexual Violence, Sexual Harassment and Sexually Harmful Behaviour (SHB) can occur between two children of any age and sex or with groups of children by sexually assaulting or sexually harassing a single child or group of children.

We recognise that this behaviour can take place in a school or any setting where students are together and that the impact of this behaviour on children can be extremely distressing, impacting on their emotional health and wellbeing as well as affecting their academic achievement.

Sexual Violence and Sexual Harassment must be referred immediately to the Designated Safeguarding Lead (DSL)

Sexual Violence - For this procedure we are referring to sexual offences under the Sexual Offences Act 2003 as described below:

- **Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Assault by Penetration:** A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Sexual Assault:** A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

Sexual Harassment - For this procedure we mean 'unwanted conduct of a sexual nature' that can occur online and offline. We refer to this in the context of child-on-child sexual harassment. Sexual harassment is likely to violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment. Whilst not intended to be an exhaustive list, sexual harassment can include:

- Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance, and calling someone sexualised names
- Sexual "jokes" or taunting
- Physical behaviour, such as deliberating brushing against someone, interfering with someone's clothes and displaying pictures, photos, or drawings of a sexual nature; and
- Online sexual harassment, which might include non-consensual sharing of sexual images and videos and sharing sexual images and videos (both often referred to as sexting); sexualised online bullying and inappropriate sexual comments on social media; exploitation; coercion and threats. Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence

Sexually Harmful Behaviour (SHB) In this policy we recognise the importance of distinguishing between healthy, problematic, and sexually harmful behaviour.

Sexually harmful behaviour from young people is not always contrived or with the intent to harm others. There may be many reasons why a young person engages in sexually harmful behaviour, and it may be just as distressing to the young person who instigates it as to the young person it is intended towards. It may include:

- inappropriate sexual language
- inappropriate role play
- sexual touching
- sexual assault/abuse

Consent is when someone **agrees by choice** and has the **freedom** and **capacity** to make that choice. It is important to note that:

- A child under the age of 13 can never consent to any sexual activity
- The age of consent is 16
- Sexual intercourse without consent is rape

Sexting - the sharing of nude or indecent imagery (youth produced sexual imagery)

The term 'sexting' relates to the sending of indecent images, videos and/or written messages with sexually explicit content; these are created and sent electronically. They are often 'shared' via social networking sites and instant messaging services. These images may have been because of upskirting.

Initiation/Hazing

Hazing is a form of initiation ceremony which is used to induct newcomers into an organisation such as sports team, etc. There are several different forms, from relatively mild rituals to severe and sometimes violent ceremonies. The ceremony welcomes newcomers by subjecting them to a series of trials which promote a bond between them. After the hazing is over, the newcomers also have something in common with older members of the organisation, because they all experienced it as part of a rite passage. Many rituals involve humiliation, embarrassment, abuse, and harassment.

Teenage relationship abuse

Teenage relationship abuse is a pattern of actual or threatened acts of physical, sexual, and/or emotional abuse, perpetrated by an adolescent (between the ages of 13 and 18) against a current or former partner. Abuse may include insults, coercion, social sabotage, sexual harassment, threats and/or acts of physical or sexual abuse. The abusive teen uses this pattern of violent and coercive behaviour, in a heterosexual or same gender relationship, to gain power and maintain control over the partner. This abuse may be child sexual exploitation.

Responding to a concern/incident/disclosure of child on child abuse

Child on child abuse may occur in Sir Graham Balfour, on the way to or from the setting or out in the community. Consideration will be given to many aspects of the abuse and here are a few examples:

- Does it involve a single incident or has occurred over time?
- Is the behaviour problematic and concerning?
- Does it involve any overt elements of victimisation or discrimination, e.g. related to race, gender, sexual orientation, physical, emotional, or intellectual vulnerability?

- Is there any element of coercion or pre-planning?
- Does it involve a power imbalance between the child/children allegedly responsible for the behaviour and the child/children allegedly the subject of that power?
- Has there been a misuse of power?

It is also important that we:

- ascertain if there were there any witnesses to the abuse
- make notes and record ALL conversations with children spoken to as well as parents/carers/other professionals, including any actions taken
- treat all children involved as being at potential risk - while the child allegedly responsible for the abuse may pose a significant risk of harm to other children, s/he may also have considerable unmet needs and be at risk of harm themselves
- ensure that a safeguarding response is in place for both victim and alleged perpetrator

Consideration should also be given to supporting children who have witnessed peer on peer abuse of any kind. This is likely to be traumatic and support may be required. We will signpost to agencies and support services available where needed.

We will do all that we can to ensure both the victim and alleged perpetrator, and any witnesses, are not being bullied or harassed following this. Social media is likely to play a part in the fall out from any incident and friends from either side could well harass the victim or alleged perpetrator online as well as face to face. Any evidence we have of students using social media inappropriately will be sanctioned according to existing policies.

Responding to all reports and concern of sexual violence and/or sexual harassment between children.

Guidance is clear in that it does not attempt to provide (nor would it be possible to provide) detailed advice on what we should do in any or every particular case; it provides effective safeguarding practice and principles for us to consider in the decision-making process and on a case by case basis.

The Designated Safeguarding Lead (DSL) and deputies (DDSLs) will take the lead role when dealing with this type of abuse using their professional judgement and working together practices. Reports of sexual violence and sexual harassment are likely to be complex and require difficult professional decisions to be made, often quickly and under pressure and it is important to maintain a calm, considered and appropriate response to any reports.

We understand that it is not easy for children to tell us about this type of abuse, and they may struggle to make a direct verbal report. Therefore, observations of changes in presenting behaviours is key.

We understand the importance of our initial response to a report and how this can encourage or undermine the confidence of future victims of sexual violence and sexual harassment. The culture in the setting is key to this.

On occasions the victim may not wish for their identity to be known and there are no easy or definitive answers when this is requested. If the victim does not give consent to share information, we may still lawfully share it, if it can be justified to be in the public interest. For example, to protect children from harm and to promote the welfare of children.

The Designated Safeguarding Lead will consider the following:

- The wishes of the victim in terms of how they want to proceed
- The victim(s) should be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and any support that they will be offered - we will balance this aspect and the need to balance our duty and responsibility to protect other children
- The nature of the alleged incident(s) including might a crime have been committed and consideration of any display of harmful sexual behaviour
- The ages of the students involved
- The developmental stages of the students involved
- Any power imbalance between the students (e.g. Is the alleged perpetrator significantly older? Does the victim have a disability or learning difficulty?)
- If the alleged incident is a one off or a sustained pattern of abuse (the sustained pattern of abuse may not just be of a sexual nature)
- That sexual violence and sexual harassment can take place within intimate personal relationships between peers
- Whether there are ongoing risks to the victim, other children, adult students, or staff
- Other related issues and wider context, including links to any forms of child exploitation

When we talk about Sexual Violence and Sexual Harassment between children, we will refer to 'victim' and 'alleged perpetrator'. This does not mean that we are taking sides nor making any judgement, but for the purpose of this policy we will refer to children involved in this way.

Victim - When we speak to the 'victim' we will:

- listen and take any disclosure seriously
- never make them feel that they are creating a problem or be ashamed
- reassure them that they will be kept safe
- handle the situation with sensitivity
- use proper names for body parts but record exactly any language or vocabulary used by the child
- ask open questions and not lead the victim
- ascertain where the abuse occurred as this may highlight 'hot spots' or vulnerable locations in the setting or within the community which may need to be revisited by either ourselves (in school) or by alerting police/partners if it is in the community
- ascertain if other children witnessed this abuse
- consider ongoing support within the setting
- consider any referrals for external support

Parents or carers of the victim will be informed (unless this would put the victim at greater risk). Rape, assault by penetration and sexual assaults are crimes and the DSL will have to balance the victim's wishes against their duty to protect the victim and other children within the school setting. If we do decide to make a referral to children's social care and/or a report to the police against the victim's wishes, this will be handled extremely carefully, the reasons will in most cases be explained to the victim and appropriate specialist support offered. We will also consider the following:

- The wishes of the victim in terms of how they want to proceed
- That the victim(s) should be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and any support that they will be offered. (We will balance this aspect and the need to balance our duty and responsibility to protect other children)
- The nature of the alleged incident(s) including might a crime have been committed and consideration of any display of harmful sexual behaviour.
- The ages of the students involved
- The developmental stages of the students involved
- Any power imbalance between the students (e.g. is the alleged perpetrator significantly older? Does the victim have a disability or learning difficulty?)
- If the alleged incident is a one off or a sustained pattern of abuse (the sustained pattern of abuse may not just be of a sexual nature)
- That sexual violence and sexual harassment can take place within intimate personal relationships between peers
- Are there ongoing risks to the victim, other children, adult students, or staff
- Other related issues and wider context, including links to any forms of child exploitation

We will give all the necessary support for the victim to remain in school; however, if the trauma results in the victim being unable to do this, alternative provision or a move to another school or college will be considered to enable them to continue to receive suitable education. This will only be at the request of the victim (and following discussion with their parents or carers).

Alleged perpetrator - When we speak to the 'alleged perpetrator' we will:

- listen to what they say and not dismiss their account
- handle the situation with sensitivity and a non-judgemental approach
- offer ongoing support
- record all conversations and all action taken
- consider any referrals for external support, e.g. Youth Offending Service/Catch 22

When to inform the alleged perpetrator will be a decision that will be carefully considered. Where a report is going to be made to children's social care and/or the police, then, as a general rule, we will speak to the relevant agency and discuss next steps and how the alleged perpetrator will be informed of the allegations.

There are four likely scenarios we will need to consider when managing any reports of sexual violence and/or sexual harassment:

- a) **Manage internally** - In some cases of sexual harassment (for example, one-off incidents), we may take the view that the students concerned are not in need of early help or statutory intervention and that it would be appropriate to handle the incident internally using our own sanctions in line with the Achievement and Positive Behaviour and Anti-Bullying policies and by providing pastoral intervention and support.
- b) **Early Help** - We may decide that the children involved do not require statutory interventions but may benefit from early help where we are the lead professional. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can

be particularly useful to address non-violent harmful sexual behaviour and may prevent escalation of sexual violence. This will help to evidence the support that we have given, the work undertaken and if desired outcomes have been achieved

- c) Referral to social care - At the point of referral to children's social care, we will generally inform parents or carers, unless there are compelling reasons not to (if informing a parent or carer is going to put the child at additional risk).

If a referral is made, children's social care will then make enquiries to determine whether any of the children involved need protection or other services. Where statutory assessments are appropriate, the DSL or DDSL should be working alongside, and cooperating with, the relevant lead social worker. Collaborative working will help ensure the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator(s) and any other children that require support.

- d) Referral to the police - See Section 4 below

Reporting to the Police

At Sir Graham Balfour MAT we understand our responsibilities to call the Police and reporting forms of child on child abuse. This does not mean that we are looking to criminalise children, and this may not always be necessary.

The guidance that we follow is:

When to call the police (guidance for schools and colleges)

Outcome 21 Sexting Guidance

In any form of child on child abuse where it is believed that an offence has been committed, a report may be made to the Police.

Where a report has been made to the police, we will consult with the police and agree what information is appropriate to disclose to staff and others, in particular the alleged perpetrator and their parents or carers. We will also discuss the best way to protect the victim and their anonymity.

This may also include the development of a clear and robust safety and support plan as part of this early help process. However, as you will see further on in this policy, risk assessing and safety planning is a key aspect of all peer on peer abuse.

With regard to sexual violence and sexual harassment between children, where there is a report of a rape, assault by penetration or sexual assault, the starting point is that this should be passed to the police who will advise and log according to their own guidelines.

Working with our parents and carers

At Sir Graham Balfour MAT we will, in most instances, engage with both the victim's and the alleged perpetrator's parents or carers when there has been a report of peer-on-peer abuse including sexual or sexual harassment. The exception to this rule is if there is a reason to believe that informing a parent or carer will put a child at additional risk.

We will carefully consider what information provided to the respective parents or carers about other children involved and when to do so.

It should be the case that we will meet the victim's parents or carers with the victim present to discuss what arrangements are being put in place to safeguard the victim and understand their wishes in terms of support they may need and how the report will be progressed.

It is also likely that we will meet with the alleged perpetrator's parents or carers to discuss any arrangements that are being put into place that impact the alleged perpetrator, such as, for example, moving them out of classes with the victim and what this means for their education.

We will be clear and transparent and explain the reason behind any decisions. Support for the alleged perpetrator will be discussed including any referrals, if appropriate.

We realise that parents and carers may well struggle to cope with a report that their child has been the victim of an assault or is alleged to have assaulted another child. Details of organisations that support parents are provided on the school website and at the end of the policy.

Sanctions

We will decide appropriate sanctions on a case-by-case basis in line with the Achievement and Positive Behaviour Policy and any graduated response required.

We will take their behaviour seriously and again use a graduated response to this, whilst also educating them the importance of resolving any conflict in a respectful and restorative way.

If there is police involvement, we will work closely with them to ensure that any disciplinary action taken by us, as a result of the incident, does not jeopardise the police investigation.

Post Incident Management

It is vital that all children involved in child on child abuse are given appropriate and ongoing support for as long as it is required/needed. This may include referrals to other agencies/professionals outside the setting and this decision will be made in conjunction with the children, their parents/carers, and other professionals.

If there are other professionals involved, then we will liaise with those colleagues to ensure that we are working together and understand one another's role in this support.

There may be delays in any case that is being progressed through the criminal justice system. However, we will not wait for the outcome (or even the start) of a police investigation before protecting the victim, alleged perpetrator, and other children in the school and moving forward with our post incident management.

Support planning is vital, and it is imperative that following any incident the children involved continue to feel supported and receive help even if they tell us that they are coping and managing. Sometimes feelings of embarrassment, remorse, regret, or unhappiness may occur at a much later stage. We will do our best to ensure that the young people do not engage in any further harmful behaviour either towards someone else or to themselves as a way of coping (e.g. self-harm). For this reason, regular reviews with the young people following the incident(s) will happen as part of this plan.

Referrals may have already happened as mentioned previously in this policy, but it is important to establish which professionals continue to work with ALL children involved in this process and this is helped with robust planning.

Safety planning/Risk assessment

Integral to post incident management is robust safety planning/risk assessment and this is an invaluable and necessary process. It is one of the key priorities as part of the post incident management. When looking at this process, consideration should be given to the following:

- if this is an ongoing police investigation, we will ask the police if we have any questions about the progress of the matter for example, are there any bail conditions in place or has there been a charging decision. It is key to have a central point of contact with the police for updates and progress. Where required, advice from the police will be sought to help us to manage our safeguarding responsibilities. Where bail is deemed proportionate and necessary, as above, we will work with children's social care and the police to manage any implications and safeguard children
- the importance in ensuring that the victim can continue in their normal routine, including continuing to receive a suitable education
- the importance of the alleged perpetrator in continuing to access education and support
- do the victim and alleged perpetrator share classes
- what measures need to be put in place when children move between lessons/classes
- what measures need to be put in place for unstructured time (break and lunchtimes)
- what measures need to be put in place for the arrival at the start of the school day and leaving at the end of the school day
- do the victim and alleged perpetrator travel to and from school using the same form of transport
- appropriate information sharing with staff in the setting in order that the plan is manageable and as successful as possible
- if it is the case that the alleged perpetrator is moved to another educational institution (for any reason), then we will ensure that the new educational institution is made aware of any ongoing support needs.

In all cases, we will record the decision making together with the rationale behind those decisions. All the above will be considered with the needs and wishes of the victim at the heart of all that we do as part of this process (supported by parents and carers as required). The safety plan/risk assessment will be kept under review.

Appendix 8

Allegations of abuse made against staff

Section 1: allegations that may meet the harms threshold

This section is based on 'Section 1: Allegations that may meet the harms threshold' in part 4 of Keeping Children Safe in Education.

This section applies to all cases in which it is alleged that a current member of staff, including a supply teacher, volunteer or contractor, has:

- Behaved in a way that has harmed a child, or may have harmed a child, and/or
- Possibly committed a criminal offence against or related to a child, and/or
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, and/or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school
- We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

A 'case manager' will lead any investigation. This will be the Headteacher, or the Chair of Governors where the Headteacher is the subject of the allegation. The case manager will be identified at the earliest opportunity.

The procedures for dealing with allegations will be applied with common sense and judgement.

Suspension of the accused until the case is resolved

Suspension of the accused will not be the default position and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents/carers have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the SGB MAT.
- If in doubt, the case manager will seek views from the school's personnel adviser and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

Definitions for outcomes of allegation investigations

- **Substantiated:** there is sufficient evidence to prove the allegation
- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation
- **False:** there is sufficient evidence to disprove the allegation
- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

- Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below
- Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the Police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the Police)
- Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the Police or children's social care services, where necessary). Where the Police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, Police and/or children's social care services, as appropriate
- Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the Designated Safeguarding Lead (DSL) and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care
- **If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details
- **If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer

what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation

- **If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the Police and/or children's social care services as appropriate
- Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate. Staff are strongly encouraged to join a trade union and where this is the case, they should contact their representative for advice. The Business Manager of the school will also be able to offer contact details of the SGB MAT's counselling service.
- Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the Police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice
- Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)
- Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the Secretary of State has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the Police are involved, wherever possible the school will ask the Police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Additional considerations for supply teachers and all contracted staff

If there are concerns or an allegation is made against someone not directly employed by the school, such as a supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to the standard procedures.

- We will not decide to stop using an individual due to safeguarding concerns without finding out the facts and liaising with the Local Authority Designated Officer (LADO) to determine a suitable outcome
- The governing board will discuss with the agency whether it is appropriate to suspend the individual, or redeploy them to another part of the school, while the school carries out the investigation
- We will involve the agency fully, but the school will take the lead in collecting the necessary information and providing it to the LADO as required
- We will address issues such as information sharing, to ensure any previous concerns or allegations known to the agency are taken into account (we will do this, for example, as part of the allegations management meeting or by liaising directly with the agency where necessary)

- When using an agency, we will inform them of the process for managing allegations, and keep them updated about our policies as necessary, and will invite the agency's HR manager or equivalent to meetings as appropriate.

Timescales

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the Police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated, unfounded, false or malicious reports

If a report is:

- Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Unsubstantiated, unfounded, false or malicious allegations

Effective Date: 7th December 2022
v6.0

Safeguarding Policy

Issue:

If an allegation is:

- Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, Police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the Police as appropriate.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all

other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

References

When providing employer references, we will:

- Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious
- Include substantiated allegations, provided that the information is factual and does not include opinions

Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with the local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the Police.

Section 2: concerns that do not meet the harm threshold

The section is based on 'Section 2: Concerns that do not meet the harm threshold' in part 4 of Keeping Children Safe in Education.

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Concerns may arise through, for example:

- Suspicion
- Complaint

- Disclosure made by a child, parent or other adult within or outside the school
- Pre-employment vetting checks
- We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Definition of low-level concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in or on behalf of the school may have acted in a way that:

- staff should be made clear what constitutes a low-level concern via the Staff Code of Conduct
- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, and
- Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority
- Examples of such behaviour could include, but are not limited to:
 - Being overly friendly with children
 - Having favourites
 - Taking photographs of children on their mobile phone
 - Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
 - Using inappropriate sexualised, intimidating or offensive language

Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

- Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others
- Empowering staff to share any low-level concerns
- Empowering staff to self-refer
- Addressing unprofessional behaviour and supporting the individual to correct it at an early stage
- Providing a responsive, sensitive and proportionate handling of such concerns when they are raised
- Helping to identify any weakness in the school's safeguarding system
- Having an open-door policy to senior leaders and Safeguarding staff.

Responding to low-level concerns

If the concern is raised via a third party, the Headteacher will collect evidence where necessary by speaking:

- Directly to the person who raised the concern, unless it has been raised anonymously

- To the individual involved and any witnesses
- The Headteacher must contact the LADO to seek advice if they are concerned whether the low-level concern has met threshold
- The Headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the school's disciplinary policy and staff code of conduct.

Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

- Kept confidential, held securely and comply with the DPA 2018 and UK GDPR
- Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course of action, either through disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority
- Retained at least until the individual leaves employment at the school
- Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

References

We will not include low-level concerns in references unless:

- The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or
- The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance

Appendix 9

Areas of Safeguarding which are specific to Sir Graham Balfour School.

The Role of the Governing Body

The Safeguarding link is Mike Winkle, Chair of Governors. He provides strategic direction of Safeguarding. There is a twice-yearly formal meeting between the Chair of Governors and the DSL. The DSL reports directly to the Standards, Curriculum and Students and Community which includes the number and nature of incidents raised, number and nature of incidents referred to the ESAS and first response. Current caseload is also reported. This forms part of the Headteacher's report to the Local Governing Body.

Role and responsibility of DSL/DDSL

The DSL is Sharon Metcalfe, Deputy Headteacher i/c of Personal Development and Welfare. DDSLs are Rachel Hedges, Student Support Manager and Sarah Marshall, Assistant Headteacher, Personal Development and Welfare. All year heads are Level 2 Safeguarding trained.

The Designated and Deputy Safeguarding Leads (DSL and DDSL) will carry out their roles in accordance with Keeping Children Safe in Education 2022.

The DSL/DDSL will undergo the appropriate Safeguarding Training to provide them with the knowledge and skills to carry out their role. This training should be updated at least every 2 years, in line with the Staffordshire Safeguarding Children's Board requirements.

In addition to the formal training, their knowledge and skills are refreshed at regular intervals, at least annually, through the termly SCC DSL Briefings, meeting other DSL's, emails and reading statutory guidance. The training provides DSL/DDSL's with a good understanding of their own role, the processes, procedures, and responsibilities of other agencies, particularly children's social care.

The DSL continually develops an understanding of the community the school serves, the risks and resilience. PCSOs are essential in keeping in touch with issues which arise in the community. Many of our staff live in the local community and keep us abreast of the community.

Specific training for all staff

- At Sir Graham Balfour we have a robust Safeguarding training schedule for all staff, which is monitored by the DSL. All staff receive annual Level 1 Safeguarding training, as required in KCSIE 2021, and receive regular updates through staff meetings, briefings, emails etc. to develop and support robust safeguarding practices amongst all staff. The Level 1 Safeguarding Training will take place during the first half term with mop ups for staff who are unable to attend the first day. Safeguarding training is part of the Induction Schedule and sessions are run for Trainee Teachers. A half termly newsletter is prepared for both parents and staff. Updates appear in the Staff Bulletin.
- The school has **clear induction processes** for all staff, volunteers and Governors, and all required documents and policies are provided both at induction of new staff, and on a yearly refresh basis for current staff. These documents include Part 1 of KCSIE 2021 (staff sign to say that they have read and understand at part of the appraisal process); Code of Conduct; Achievement and Positive Behaviour Policy.

Online monitoring systems

Sir Graham Balfour recognises the range of issues that have arisen due to the increased use of the internet and social media. Therefore, the following takes place as pro-active methods to counter inappropriate use of the internet and social media.

- We use SENSO as a method to identify inappropriate internet searches of a sexual nature, violent nature, suicidal nature etc.. Any concerns are sent directly to My Concern which are acted upon by the DSL or DDSLs.
- The DSL and DDSL have access to SENSO so we can search an individual's internet searches if we have any concerns about students.
- Online safety is a theme that runs through the Online Safety Policy, The Staff Code of Conduct and the Achievement and Positive Behaviour Policy.
- Online safety is taught through the Computing Curriculum, RSE and PSHE lessons.
- Parents are updated regarding Online Safety via the Safeguarding newsletter.
- The DSL conducts an annual review of online systems and issues relating to inappropriate online usage to ensure that practice is responding to need.

The people you should talk to in school are:

Role in school	Name	Contact Number
Designated Safeguarding Lead (DSL)	Sharon Metcalfe	01785 223490
Deputy Designated Safeguarding Leads (DDSL)	Rachel Hedges Sarah Marshall	01785 223490
Chair of Governors	Mike Winkle	mwinkle@sirgrahambalfour.staffs.sch.uk
