## Carbon footprint calculations

All ingredients used to cook the dishes on this menu are assigned a **carbon footprint** based on their emissions to the atmosphere

The carbon footprint is based on the **type of ingredient**, **production method** and **country of origin** 

We build recipes to calculate the **total carbon footprint** of a meal

Our climate label shows how climate friendly each dish is, so you can be a climate hero every lunch break

## How much CO2e do you put on your plate?

## Low

0.1-0.5 kg CO2e

Choose meals with a low climate impact to eat within the planetary boundaries

Medium

0.6-1.5 kg CO2e

Meals with a medium climate impact have a carbon footprint below the average

High

1.6+ kg CO2e

Meals labelled as 'high' have a higher climate impact than the average meal
